### **REPLY Under 37 C.F.R. §§ 1.113 and 1.116**

Sir:

In response to the Office action of August 28, 2006, made final, in the above-identified patent application, Applicant requests entry of the following amendment—which makes two slight revisions to the single pending independent claim to distinguish the present invention further, yet does not raise any new issues—and consideration of the following further arguments as to the patentable merits of the invention as claimed. It is believed that such consideration would not require further search of the prior art, and thus would not put an unwarranted, post-final-action burden on the Office.

Along with a petition for a one-month extension of time, this reply is being filed on January 29, 2007, the first business day following the Sunday, January 28, 2007 date that is four calendar months from the mailing date of the Office action, and is therefore timely filed.

### **AMENDMENT Pursuant to 37 C.F.R. § 1.121**

**Amendments to the Claims** are reflected in the listing of claims that begins on page 2 of this paper.

**Remarks** begin on page 7 of this paper.
